

3rd International IFOAM Organic Coffee Conference

International Conference Center Kampala, Uganda

21st to 28th March 2004

Where the organic coffee people meet!

- The current state of organic coffee production, bottlenecks and the research agenda to improve organic coffee production
- The current state of organic coffee markets, bottlenecks and strategies for the future
- To present the certified organic coffees in order to stimulate market uptake
- To inform the coffee sector of the developments in organic coffee

Conference, exhibition, cupping, tours!

Uganda has developed into the leading country for organic production in Africa – about 35 000 farmers are certified currently. Uganda has also developed a reputation for its organic coffee. The Uganda organic coffee production is taking place in 5 large projects with almost 20 000 small holders involved. Its location close to other major coffee producing countries such as Kenya, Ethiopia, Rwanda and Tanzania makes it the ideal location for hosting the 3rd IFOAM Organic Coffee Conference.
